Nihal Magdy Ellithy
Huawei

Dear Nihal Magdy Ellithy,

I am Mohammed Lachhab, a second-year Computer and Cybersecurity Engineering student at ENSET Mohammedia, Morocco. I am excited to apply for Huawei's 2025 internship program in Cybersecurity. With a passion for securing digital systems, I am eager to contribute to and learn from your innovative team.

During my internship at CONCREFIELD, I configured Cisco firewalls and enhanced system security, reducing vulnerabilities by 40

My experience in Agile project environments has honed my teamwork and communication skills. I thrive in fast-paced settings, such as hackathons, where my adaptability and problem-solving abilities shine. I approach challenges strategically, much like planning moves in chess, my favorite hobby. Beyond cybersecurity, I enjoy coding creative projects, such as designing game levels, and reading to fuel my curiosity.

Enclosed is my CV for your review. I would welcome the opportunity to discuss my application further and am available at your convenience. Thank you for considering my application. I am enthusiastic about the possibility of contributing to Huawei's mission while growing as a cybersecurity professional.

Sincerely,
Mohammed Lachhab
